

Guidance notes for the Transparency Fund application form

These notes are designed to assist you with completing the Transparency Fund application form.

The application form contains questions which will allow you to produce a bid for funding to enable you to work towards compliance with the mandatory Transparency Code for Smaller Authorities who have a turnover of less than £25,000.

If your Authority has undertaken work or bought equipment after 01 April 2015 solely to comply with the Transparency Code then this spend is eligible for grant funding. Where the already undertaken spend is in excess of the suggested thresholds we may be able to pay a proportion of the cost.

The form will alert the applicant if the amounts claimed exceed the threshold. The board will approve such claims in exceptional circumstances. For this reason, if you would like to claim an amount exceeding the threshold, please indicate why in the text box at Question 29.

Extra Burden

An authority may apply for funding for a computer/scanner if they do not possess a computer/scanner. If the authority already owns a machine capable of meeting the requirements of the Transparency Fund, then they may not apply even if it is an old machine. Additional staff costs for doing the work around compliance with the Transparency Code may be applied for. The Transparency Fund will not pay any unnecessary additional costs, for example, a standard computer may be considered, but not an expensive top of the range model. Unfortunately the argument that a better computer will serve other purposes as well is not valid in this case.

Costs such as connection to the Internet may be claimed if there was no facility before as may the costs of setting up a new website, but specifically for Transparency purposes. Should an authority wish for a full website with a range of information, the fund will only pay for the sections necessary for the authority to comply with the Transparency Code. However we would ask authorities to look at the long term viability of an arrangement. If after the two years costs will be too high for an authority to manage without the Transparency Fund financial support, then an application needs to be discussed first with the authority's County Association (CALC) or the Association of Drainage Authorities (ADA), as applicable.

If you have any queries please consult the NALC Transparency Frequently Asked Questions page [here](#) or contact your CALC or ADA.

The application form has been set up as a spreadsheet which has been locked, meaning that you will only be able to change the contents of the white boxes. Please attempt to use the spreadsheet version of the form – if you are unable to use it please contact your CALC or ADA who will be able to provide you with an alternate version.
